Due:$_______ Due:$_______	Due:$_______ Due:$_______	Due:$_______ Due:$_______	Due:$_______ Due:$_______	Due:$_______ Due:$_______	Due:$_______ Due:$_______	Due:$_______ Due:$_______	**Weekly Amount Due** **$__________**

Directions:

1) Fill out the month with the dates according to the days of the week
2) Use the line above “Due: $” to put what is due for example: credit card, car loan, rent, etc
3) Put the minimum payments that are due after the $ sign
4) Add the amounts that are due weekly to find how much you need weekly
5) Add the amounts that are due monthly to see how much you need to make in order to pay your necessary bills (once you have that number, you can add how much you typically spend on groceries, gas, gifts, fun, subscriptietc

This is meant to show you how much you need to make each month to cover all your bills. This will also show you how much you are spending.

When it comes to having a job, be aware of how much each paycheck is, how many times you are paid per month and if you spend more or less than what you take home.
